

# Meet the Red the Robot® Regional Support Teachers!

**We are proud to introduce our new  
Regional Support Teachers.**

Each Regional Support Teacher has a designated area to be the point of contact for schools, Early Years settings, cluster meetings, trial support and ongoing CPD.

These fully qualified, Red the Robot® trained and experienced teachers are on hand to deliver demonstrations, technical support and trialling guidance to schools and CPD meetings for all staff throughout the year. They will also continue relationships with their area Local Authorities for meetings, training, demonstrations and provide Literacy fair and cluster meeting support.

They also provide INSETS and whole school training sessions to show how well children can be motivated with Red the Robot®.

Over the next academic year Red the Robot® Regional Support Teachers will be increasing in numbers across the UK so every area will have a point of contact going forward. They will also be piloting new Red the Robot® ideas in their areas alongside local schools and authorities.
